- Locate alarm pull stations and fire extinguishers.
- Know the number for the office and emergency services.

911

BE SAFE

- Don't smoke in bed and use a non-combustible ash tray.
- Don't over load outlets.
- Avoid cooking in rooms and using candles.
- Maintain working smoke detectors.
- Keep your exit path clear.

WHAT TO DO IN A FIRE

R: **RESCUE** your self than others.

A: **ALARM** others by yelling fire, pounding on doors as you leave, activate a pull station, call 911. DO NOT assume someone has called 911.

C: **CLOSE** the door to the room that's burning.

E: **EVACUATE** the building in a calm, orderly fashion to a safe distance away from the building, but do not leave until emergency services. have accounted for you.

HOW TO USE A FIRE EXTINGUISHER

P  **PULL** the pin.

A  **AIM** at the base of the fire.

S  **SQUEEZE** the handle.

S  **SWEEP** the hose back and forth.

RULE: 1 fire extinguisher and done, evacuate the building.
