Message from the Supervisor

Our newsletter is a report to our constituents to show you how our operations are progressing and how the Town is doing overall.

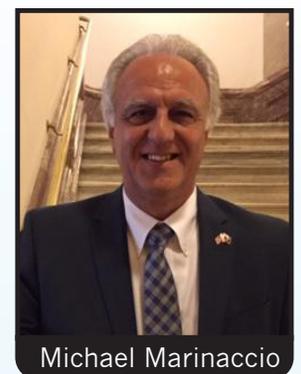

The 2024 Town Budget was again a great team work effort. We continued to keep our annual budget within the state-imposed tax cap, while at the same time experiencing ever-increasing state mandates with no relief in sight. Sales Tax, which our town relies on to fund our Highway Department and in part, our general fund, increased for 2023 and that helped us in maintaining our operations and staying, once again, under the state-imposed tax cap. The increase in town property taxes was 1.2%.

One of the challenges that we faced in 2023 was the great influx of solar project companies asking for applications to build their solar projects. The problem was that all the projects were concentrated along the Glenwood Road corridor which runs through predominated residential use. One project located up above the cemetery off of Glenwood was approved by the planning board after an extensive review. A second project, located further up Glenwood was in the process of going through the site review and approval process by our Planning Board, but at

the same time we began to receive many other requests for applications for solar projects along Glenwood Rd. That is when we instituted a moratorium that gave us time to carefully review our existing town solar laws and make necessary changes to protect our residents.

A Solar Farm Committee was appointed and they were instrumental in coming up with recommendations for revisions of our current town law. The committee was comprised of several residents, members of the planning and zoning boards, but no elected officials were on the committee.

We came up with a revised town law (overlay) that would prevent any encroachment of solar projects in the overlay boundaries. The second solar project had authorization to move forward with added restrictions and guidelines, but the overlay boundaries that are now part of the town law will prevent any future solar projects in the

Michael Marinaccio

(continued on page 2)

Message from the Supervisor (continued)

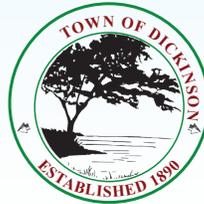

Glenwood Rd., Chenango Shores and Sunrise Terrace to be built.

As a reminder, we continue to deal with property owners who violate our Building Maintenance Codes and Building permits procedures. This behavior increases the work load for our code officers, town clerk, town judges, town attorney, etc. Properties that are in violation of various building codes also generate safety and health issues that negatively affect neighbors and the surrounding community, not to mention property values. We will not sit idly by and we will take whatever necessary action under the law to hold property owners responsible and correct the violations.

I am honored to become the 1st Vice-president of the New York Association of Towns. As always, I will work alongside my NYAOT

Executive Board and Executive Director in an effort to address any and all issues that impact our towns with the focus on preserving Home Rule.

As always, it is an honor and a pleasure to serve the residents of the Town of Dickinson and I am looking forward to working with you, our staff and our elected officials in a continuing effort to keep the Town of Dickinson a great place to live.

Annual New York State Audit Report

Once again, the New York State Audit & Control rated the Town of Dickinson very high in the Town's financial status. The State reviews all aspects of our Financial Status such as the General and Highway Funds, Personal Services, Employee Benefits, Bonding, etc. and reported that the Town of Dickinson was in an excellent financial position.

Glenwood Cemetery

The Glenwood Cemetery is owned and operated by the Town of Dickinson. If you are interested in purchasing a plot or would like more information, please contact us.

Private Regular Plot: \$550.00
Opening/Closing, \$500.00
Private Cremains Plot: \$250.00
Opening/Closing, \$300.00

Contact: Darrell Dennison,
Administrative Assistant
Town of Dickinson
607-723-9401, Ext. 203

Honoring our veterans at Glenwood Cemetery.

Water/Sewer Rates

As a reminder, the Town of Dickinson does not have its own water wells or sewage treatment plant, but instead, we purchase our water from the Town of Chenango, City of Binghamton, Town of Union and Johnson City. We average the rates that we are charged plus we add our maintenance and administration costs and come up with the rate that you are charged. Over the years the rates have increased due to water treatment costs for our suppliers and our own increased labor and equipment charges. The same is applied to our sewerage rates. We were able to reduce the costs of buying water from the Town of Chenango after we met with their officials. The saving will be approximately \$70K per year starting in 2024. We will continue to review our costs and what we charge our residents as we move forward. Please be aware that the town reserves the right to turn off water supply to those property owners who do not pay their water/sewer bills.

Town Website

We invite you to go to our town website and to browse through it. You can view all town meeting minutes, download and print various forms, contact various town officials, review planned events, and review the entire Town Code. Go to www.townofdickinson.com. There are also links to other sites that you may find interesting. Zoom has been temporarily put on hold due to technical issues with our present system.

Town of Dickinson Court

Welcome to the Town of Dickinson Court! Your court is part of the Sixth Judicial District Courts of the New York State Unified Court System. This includes the counties of Broome, Chemung, Chenango, Cortland, Delaware, Madison, Otsego, Schuyler, Tioga, and Tompkins.

Most of the work at the Court centers on Vehicle Traffic Law infractions and misdemeanors. This would include arraignments, trials and sentencing. The Court also can arraign on felonies, however, after arraignments are completed, felonies are typically handled in the higher courts. With the Broome County Jail located within the jurisdiction of the Court, any activity that occurs with defendants and/or inmates at the jail that require further court action will be heard in the Dickinson Court. In addition, this Court will also hear violations

stemming from residents disobeying Town and Village of Port Dickinson ordinances such as parking, building codes or dog control issues.

Last year, we announced the launch of the Apprenticeship Program. We are pleased to share that our relationship with SUNY-Broome's Paralegal and Criminal Justice program continues. SUNY-Broome graduates have completed our Apprenticeship Program and have been successfully placed in our local courts. We would also encourage anyone who is not a current SUNY-Broome student or may have a degree in another program area to investigate our Apprenticeship Program as well.

Anyone wishing to find out more about the Apprenticeship Program either for yourself or someone you know, please contact Stacy Thatcher at the Court number (607 723-9403).

This year, we are pleased to announce that the Dickinson Court has been awarded a grant in the amount of almost \$30,000. These funds will be earmarked to start the process of digitalizing the permanent records of the Court. The goal is to reduce the volume of paper records to more manageable electronic media. This will greatly enhance the long-term integrity of the records and enable the more efficient retrieval of these stored documents.

As a final note, a reminder that Judges will perform marriage ceremonies subject to their availability. Ceremonies can be performed anywhere that is mutually agreed upon throughout New York State.

Should you have any questions regarding the operations of the Court, please find us on the Town of Dickinson website.

Town of Dickinson Aging Demographics

In the year 2000, residents age 60+ made up 24.2% of the Town of Dickinson population. This was a decline from the 1990 (24.9%) Census data. The 2016 Census data estimates that residents 60+ population increased by 0.1%. In the Town of Dickinson, the 60+ population increased from 1,373 in 1990 to 1,374 on 2016. The 2020 Census showed similar results.

Boland Property

SUNY Broome purchasing of the Boland property which is located above Chenango Shores, is of great concern that any development up there may cause additional flooding in Chenango Shores along with other concerns. As of this writing, the purchase of this property is on hold and there are no immediate plans for development on

this property if SUNY Broome comes to terms with the property owner. More information on this issue as it becomes available.

SUNY Broome Press Conference announcing a new class for training future lines persons for NYSEG

Installation of Corporate Officers fo 0224 Prospect Terrace Fire Company

The Prospect Terrace Fire Company had another busy year providing fire protection to the Prospect Terrace area of the Town along with assisting several of our mutual aid departments throughout the year. On March 9, 2024, we held our annual Installation of Fire Company Officers and Board of Directors.

We would also like to remind all town residents that the NYS Burn Ban goes into effect starting March 16th to May 14th. Also, we are always looking for new members for many jobs to be done within the department. If you are interested in giving back and serving your community, stop on down to the firehouse on Wednesday evenings at 6:30 PM to meet with our membership committee. Keep an eye out for several fundraising events that we hold throughout the year.

The following members were sworn in.

Fire Company Officers

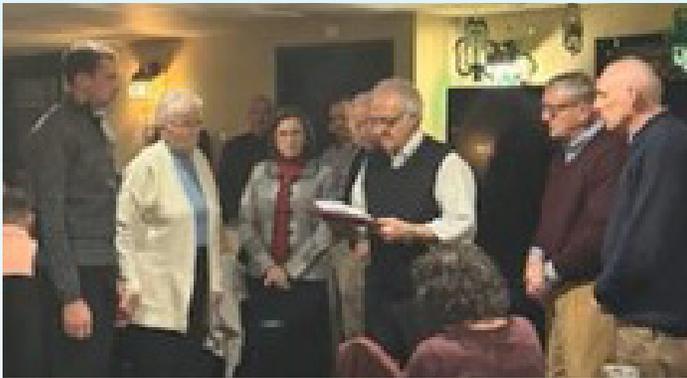

- Chief: Jason Delanoy
- 1st Assistant: Chief Kyle Doyle
- 2nd Assistant Chief: David Tripicco
- Captain: Adam Lubbe
- Lieutenant: Jamar Dimanche
- Lieutenant: Eric Novobiliski

Fire Company Board Officers

- President: Tom Pudish
- Vice President: John Kolly
- Secretary: Allison Springfield
- Treasurer: Keith Delanoy

Fire Company Board of Directors

- Tylor Ellis, Mike Cisek, Adam Lubbe,
- Eric Novobilski, George Zlock

In memory of David Smith, Prospect Terrace Fire Fighter and a US Army Veteran who passed away on February 19, 2024. March 9, 2024 was proclaimed David Smith Day. His wife and grandson received the Proclamation.

Administering the Oath of Office to the Fire Company officers

Supervisor Marinaccio giving the State of the Town

“Today we laid our brother, Prospect Terrace Fire Fire-fighter, David Smith, to rest. We couldn’t have asked for a more perfect weather day to have Dave looking over us. We would also like to thank Endwell Fire, Broome County Sheriff’s Office, and Johnson City Police Department, NY for their assistance with today’s service.

The new softball fields are a state-of-the-art \$4 million softball, facility built by Broome County. The field sponsor is Greenlight Networks Grand Slam Park

TOWN OF DICKINSON

YARD WASTE COLLECTION/SNOW REMOVAL

2024 SCHEDULE AND COLLECTION PROCEDURES

YARD WASTE:

IMPORTANT - This is a vital service aimed at collecting limited amounts of vegetation. We cannot pick up large amounts of brush, limbs, or tree trunks.

TOWN OF DICKINSON YARD WASTE PICKUP DAY IS MONDAY

- Pickup will begin at 7:00 am on Monday, April 1, 2024 and continue until Monday, November 12, 2024.
- If Monday is a holiday, pickup will be on Tuesday. On weeks with a major holiday, pickup could be Tuesday or Wednesday after the holiday.
- Place grass and other waste in solid containers - **NO PLASTIC BAGS!**

Branches and brush need to be bundled and tied in approximately 4-foot lengths.

IMPORTANT - CONTAINERS AND BUNDLES SHOULD NOT WEIGH MORE THAN 40lbs.

Overweight containers/bundles will not be picked up.

LIMIT OF 6 CANS/BUNDLES PER WEEK

NOTE: Yard waste schedule is enclosed. Please do not put garbage or plastic in your yard waste. No dirt or rocks either. This service is for yard waste only. Please don't put more than forty pounds in a can. Containers must have handles on them or they will not be picked up. Yard waste pick up starts at 7:00 am every Monday. Depending on how much yard waste is put out governs what day it will be picked up. Public Works staff start at one end of the Town and keep going until it's all picked up. Weeks that have a holiday on a Monday, pick up will start the next day.

FALL LEAF PICK-UP:

Rake leaves to the curb or place in cans.

Pickup will begin shortly after leaves begin to fall and will end on the first snowfall.

Pickup could be any weekday. **DO NOT MIX YARD WASTE WITH THE LEAVES.**

SORRY - NO COMMERCIAL, BUSINESS, SCHOOL, OR CHURCHES.

SNOW REMOVAL:

It is against the law to shovel or snow blow into the street.

Please abide by Storm Parking Regulations as posted throughout the Town of Dickinson.

TOWN OF DICKINSON (Not including Village of Port Dickinson) SNOW ORDINANCE STATES IF THERE ARE **2 INCHES** OF SNOW ON THE GROUND, OR **2 INCHES** OR MORE PREDICTED - **NO PARKING** WILL BE ALLOWED ON THE TOWN OF DICKINSON STREETS.

CHRISTMAS TREES:

Place at curb for pickup most any day until January 31st, 2024.

This will BE STRICTLY ENFORCED

THANK YOU,
JOEL KIE, PUBLIC WORKS COMMISSIONER

Town Engineer

The Town of Dickinson is an MS4 community. What does that mean? Basically, it means that our storm water is separate from our sanitary sewer system. All of our rainwater flows into the storm sewers and off to small tributaries, making its way to the Chenango and Susquehanna Rivers. From there, it snakes its way down to the Chesapeake Bay region. All the contaminants that are deposited on surfaces that receive rain, such as leaking oil from your car to the driveway, car washing, and other types of pollutants work their way there. Due to a dead zone in the Chesapeake Bay area, the EPA (Environmental Protection Agency) and DEC (Department Environmental Conservation) govern and police these water ways.

What does that mean for you? Please pay attention and do not dump any chemicals like used motor oil, paints or old gas down catch basins. Be aware of fertilizers and the potential for run off. If you have to have the perfect yard pay attention to the weather and the manufacturer's instructions when it is the best time to apply chemicals to your yard. You may not know this, but the town has an ordinance that does not allow discharging of grass clipping into the street.

Please help the Town keep our streams and rivers clean for everyone to enjoy them for boating, fishing, and swimming. Some communities use the rivers for drinking water such as Binghamton, and we buy water from them. So please be mindful of discharging materials that pollute our water and enjoy our natural resources.

Ron Lake, Town Engineer

Greetings to the Residents of Town of Dickinson

As the newly elected Town Clerk, it has been an absolute pleasure to serve the residents this past year in the Town of Dickinson. My expectation is to do my very best to serve you in the days to come. I have loved meeting all the new faces and seeing some I have met in the past. It truly is a wonderful town!

Please stop by the Clerk's office to license your dog, get a marriage license, to obtain a handicap tag or just to say "hello" and if you have any questions that you need answered.

I also want to encourage everyone to check the Town website at www.townofdickinson.com for current and valuable information regarding town news, meeting and holiday schedules, meeting minutes, yard waste and leaf pickup schedules, and much more.

Thank you and have a happy and safe 2024!
Wendi Evans, Town Clerk

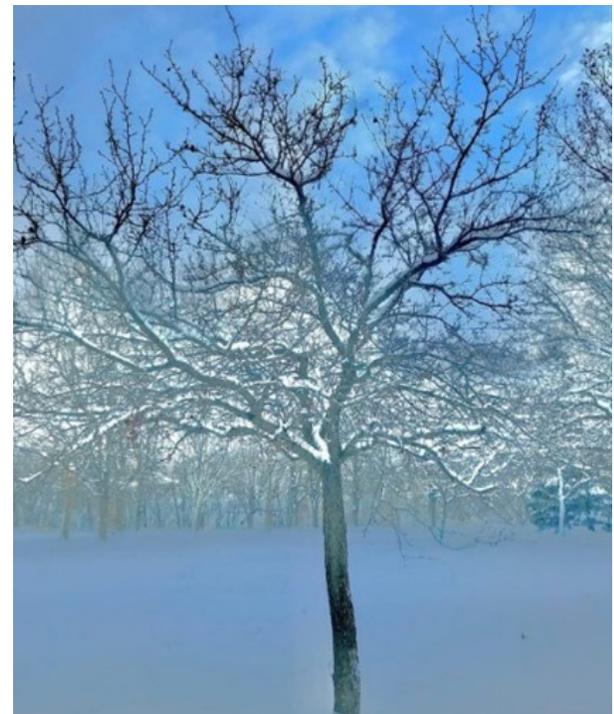

MUNICIPAL CLEANUP DAY

The Town of Dickinson will hold a Municipal Cleanup Day
Saturday, May 18, 2024 from 9 am to 3 pm
at the Town of Dickinson Highway Garage
531 Old Front Street, Binghamton, NY 13905

Wastes eligible for this program include bulk items, white goods, scrap metal, wastes from illegal dump site cleanups, and other wastes as may be collected through your special cleanup day effort. Wastes not eligible for this waiver include: General municipal solid wastes, leaves and yard wastes, construction and demolition debris, and other wastes that are managed through the course of regular collection services.

- White goods (e.g., appliances) will be accepted if the doors are removed.
- Tires will be accepted, limited to 8 per residence
- No electronics, chemicals, paints, yard waste or garbage will be accepted
- Participation is limited to Town of Dickinson residents only – no businesses.
- Identification is required

Joel Kie, Public Works Commissioner

Submitted by Susan Cerretani (Winter at Otsiningo Park)

CODE ENFORCEMENT DEPARTMENT

2023 was a busy year in the Code Enforcement Department. A total of 83 building permits representing over \$1,000,000 worth of construction were issued. Although there were no new commercial projects, most permits issued were for improvements to residential properties. These permits included new roofs, decks, siding, sheds and swimming pools. This is an excellent opportunity to remind residents and property owners that building permits are required for most projects that involve improvements to the exterior of the property. Fence permits are also required for the installation of fences.

This year 12 fence permits were issued. Application forms for both building permits and fence permits can be found on the Town website. The other focus of the Code Enforcement Department is the enforcement of local codes and ordinances. In 2023 there were 213 violations issued and 20 appearance tickets issued. These include unlicensed vehicles, tall grass, garbage complaints and unkept properties, snow on sidewalks, etc. The New York State Department of State several years ago required that most violations have a thirty-day period for persons to bring their properties into conformance. Snow on sidewalks violations is not subject to the thirty-day conformance requirement. The purpose of the 30-day time period was to assure

that all state residents had the same length of time to correct violations. If violations are not corrected within that time period, an appearance ticket is issued before the Town Justice Court. Based on the 30-day time period for compliance and the scheduling of an appearance ticket, your patience is appreciated in trying to resolve issues.

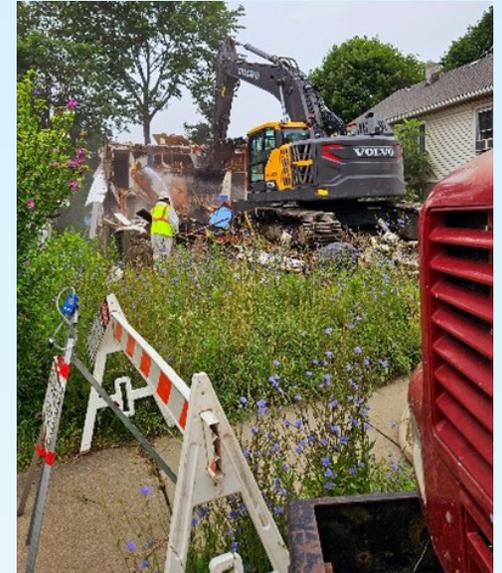

New permitting process going in affect this year for Electric Vehicle (EV) Charging stations. Under the NYS Uniform Code, EV charging stations are not currently required to be installed, but if EV charging stations are installed, then they must comply with

certain requirements, including but not limited to the installation requirements of NFPA 70; see 2020 Building Code of New York State Section 406.2.7. Below is a partial list of locations where EV charging stations are or are not regulated under the Uniform Code. Please note this is not an exhaustive list and every situation must be carefully evaluated to determine if the EV charging station

is regulated under the Uniform Code. EV Charging Stations located in the following places are regulated under the Uniform Code:

Parking Garage An EV charging station within a parking garage is regulated because a parking garage is a “building” as defined in Executive Law 372(3)

Parking Lot/Driveway on a Building/Structure Premises An EV charging station that receives electrical service from a building or structure is regulated because a building or structure’s premises are subject to the Uniform Code pursuant to Executive Law 378(2)

Residential Garage An EV charging station within a residential garage (i.e. one or two-family dwelling or townhouse) is regulated because such garage is a “building” as defined in Executive Law 372(3). See 2020 Residential Code of New York State Sections R327.12 and E3702.13

EV charging stations located in the following places are not regulated under the Uniform Code.

Parking Lot not Associated with a Building or Structure

An EV charging station located in a parking lot that has its utility service connection and associated electrical circuits independent from any building or structure.

Free Standing EV Charging Station

An EV charging station not connected to the electrical system from a building or structure.

The Code Enforcement Office continues to work with local businesses and multifamily property owners within the town to complete yearly Fire Inspections. This is to ensure the safety of all businesses within the town are up to and following NYS Fire Codes.

Another ongoing issue we have been running into is the number of complaints regarding garbage on rental properties. Per Town code **Chapter 462 Article 2 Section 462-3-2** It shall be the duty of every owner and occupant to provide, for exclusive use his/her parcel, household unit or nonhouseholder unit, sufficient receptacles for solid waste and recyclable material ordinarily generated upon such parcel. Any container that does not conform to the provisions of this chapter or that may have ragged or sharp edges or

any other defect liable to hamper or injure the person collecting the contents shall be promptly replaced upon notice. The owner of a parcel shall be responsible and liable for compliance with this chapter by the occupants of said parcel.

Also, to remind all Town residents, that it is required by NYS Fire Code that all homes and buildings have visible address identification. This helps in the event of an emergency for first responders to clearly see your address.

505.1 Address identification.

New and existing buildings shall be provided with approved address identification. The address identification shall be legible and placed in a position that is visible from the street or road fronting the property. Address identification characters shall contrast with their background. Address numbers shall be Arabic numbers or alphabetical letters. Numbers shall not be spelled out. Each character shall be not less

than 4 inches (102 mm) high with a minimum stroke width of 1/2 inch (12.7 mm). Where required by the fire code official, address identification shall be provided in additional approved locations to facilitate emergency response. Where access is by means of a private road and the building cannot be viewed from the public way, a monument, pole or other sign or means shall be used to identify the structure. Address identification shall be maintained.

Exception: Buildings identified under an addressing scheme as part of a countywide 911 numbering system.

We continue to work on resolving blighted property in the Town of Dickinson. This year we were able to demo a property on Pulaski St that had become a public safety hazard. New housing continues to develop in the town and this year Habitat for Humanity added another home to Linda Dr. These homes are done with the help of Broome-Tioga BOCES which their campus is also located in the town to help build these new homes, and provide students with an opportunity to learn these trades.

Code Enforcement staff are always willing to assist any property owner or residents with any questions that they may have concerning town codes and their requirements. You are encouraged to email the Code Enforcement Department or leave a voice mail message. Contact information is available on the Town Website.

Kyle Doyle, Code Enforcement Officer

Spring Time

We've all probably been "thinking spring" since New Year's Day! With the snow melting and days getting warmer and longer it's time to plan out your spring and summer gardens and plantings. So when you're planning, think about native plants versus non-native plants and how native plants help our local environment, especially pollinators such as bees, birds and butterflies. A true native plant is the result of natural processes; these plants have adapted to the local growing season, climate and soil conditions. Non-native plants are introduced to an ecosystem accidentally or deliberately by human means; these plants are outside of their normal, natural range. We've all been out on a hike or in the woods and come home to find little burrs or seeds stuck

to our clothing. We pick them off and drop them on the ground not giving it a second thought. You may have just introduced a non-native plant into the local ecosystem. While not all non-native plants are invasive or even harmful, they can disrupt the natural structure and function of local ecosystems by altering natural habitats and reducing animal and insect food and shelter resources. For example, a native oak tree can host over 550 species of moths or butterflies and their larvae. In contrast, a non-native ginkgo tree can only host five. Norway maples are a popular, fast growing shade tree. However, it's not a "native" tree and can crowd out native trees and the undergrowth where animals and insects live. A great alternative would be to plant a Red Maple which is "native" to the Eastern United States.

A good resource for finding plants, shrubs and trees native to the Eastern US is the National Audubon Society's Native Plant Database (audubon.org). It's very easy to use, all you need to do is type in your zip code to search. Many of the plants that came up as being "native" such as Black-Eyed Susan, Yarrow, American Aster and Jack in the Pulpit are easy to find at local large and small retailers. Or you can simply google NYS Native Plants to find a wide variety of trees, shrubs and flowers that will do very well in our area.

Your bees and butterflies will be glad that you did.

Submitted by Councilwoman Sharon Exley

Breaking ground for the SUNY Broome Time Capsule

Notes from your Dog Control Officer:

*If your dog Passes Away, is Relocated, or Changes Ownership, please be sure to notify the Town Clerk (607) 723-9401, ext. 201 immediately! If you do not notify us of the changes and ignore license renewal forms and calls, you could be summoned into court. To avoid this, please keep us informed of your dog's status!

*The annual renewal fees are:

\$15.00 for spayed/neutered dog license

\$25.00 for unspayed/unneutered dog license

\$ 3.00 for replacement dog tag

\$10.00 late fee applied (15 days past due)

Court Appearance ticket issued (30 days past due)

*Any person within the limits of the town, it shall be unlawful for any owner of a dog to be off the owner's property, unless restrained and controlled by an adequate collar and a leash not exceeding eight feet in length.

*The Dog Control Officer is equipped and trained to respond to dog related issues ONLY. If you need assistance handling other domestic animals or nuisance wildlife, contact Broome County Communications @ (607) 778-1911.

Greg Starley, Dickinson Dog Control Officer

Highway

Thank you all for your patience during this last year's construction season. The project on Sunrise Drive became more involved than originally planned resulting in a longer completion date. That made it so other areas that we would have liked to have resurfaced got pushed off to this year. The price of everything keeps going up and we keep trying to save money wherever we can. Recently, we have been approved for an electric UTV for traveling up and down the new walk path performing various maintenance projects. This will be paid for with a grant from NYSERDA.

New solar lights were installed at Exit 5 off ramp and north bound on ramp. This was a NYS Dept. of Transportation Project and it will be turned over to our town for maintenance. Check them out.

Joel Kie, Public Works Commissioner

Demolition of the Walk Bridge

The walk bridge demolition project started in September of last year and was completed as planned. The project moved along without any major issues.
